Analysts Ratings:

Reading analyst opinions is an effective way to decide where to invest, and there are several opinions available for EC since 12 analysts follow the stock currently. There are 3 analysts who recommend BUY ratings, while 0 suggest SELL ratings. Of the remaining analysts, 9 believe that the stock is worth HOLDING, 0 give it an OVERWEIGHT rating, and 0 thinks that it's UNDERWEIGHT. In the same way, a target price assigned to a stock can also reveal much about its potential. With EC analysts setting a high price target of \$77,274.35 and a low target of \$50,420.00, the average target price over the next 12 months is \$63,147.33. Based on these targets, EC could surge 684956.29% to reach the target high and rise by 446885.82% to reach the target low. Reaching the average price target will result in a growth of 559716.76% from current levels.

EPS: Estimates vs Actual

It is also common to use earnings estimates to evaluate a firm's growth potential and to determine trading strategy. EC will report FY 2022 earnings on 02/28/2024. Analysts have provided yearly estimates in a range of \$21411.94 being high and \$12995.01 being low. For EC, this leads to a yearly average estimate of \$17999.50. The earnings surprise of a firm occurs when the actual results change from the consensus earnings estimate. [Ecopetrol](#) S.A. surprised analysts by -\$0.11 when it reported \$1.04 EPS against a consensus estimate of \$1.15. The surprise factor in the prior quarter was \$0.42. Based on analyst estimates, the high estimate for the next quarter is \$5217.96 and the low estimate is \$3711.32. The average estimate for the next quarter is thus \$4347.97.
