

FITCH WIRE

Ample Liquidity Offsets Macro, Policy Risks for Colombian Corps.

Tue 14 Feb, 2023 - 10:08 a. m. ET

Fitch Ratings-New York/Bogota-14 February 2023: Corporates in Colombia (BB+/Stable) [face significant challenges](#) in 2023 from weaker macroeconomic conditions, political instability and sizable near-term debt maturities, according to Fitch Ratings. Positively, our rated Colombia corporates portfolio entered the year with healthy liquidity, with many having delayed spending plans to preserve liquidity and reduce dependence on access to funding in 2023. The majority (roughly 95%) of our rated Colombia corporates have Stable Rating Outlooks, with the remainder having Negative Rating Outlooks.

Median liquidity measures, such as cash/short-term debt, will be close to 1.5x for 2022 and 1.3x in 2023, while cash plus cash flow from operations/short-term debt will be 5.5x for 2022 and 5.0x in 2023. These metrics averaged 1.3x and 3.7x, respectively, in the past three years. Close to 50% of Fitch-rated issuers operate in regulated sectors (mostly utilities) with stable and predictable cash flows that support liquidity profiles.

However, we expect macroeconomic conditions in Colombia to deteriorate in 2023, driven by lower consumption. High and still rising nominal interest rates (currently 12.75%) will erode purchasing power. The Colombian peso depreciated by 21.0% versus the U.S. dollar during 2022 while inflation was 13.2%, above the regional average.

The political landscape will also directly affect creditworthiness of corporates in Colombia, primarily due to [energy policy uncertainty](#), as the government has taken steps recently to consolidate its influence in the sector. Government messaging, particularly in the energy sector, has also weakened investor confidence.

Colombian corporates rated by Fitch face significant maturities in 2023–2024, reaching an aggregate of USD11.7 billion. Of this, USD7.9 billion is bank debt, USD1.5 billion is in local bonds, and USD2.3 billion in international bonds. Issuers with the largest outstanding amounts are [Ecopetrol S.A.](#) (BB+/Stable) with more than USD4 billion, Grupo Energia Bogota S.A. E.S.P. (GEB; BBB/Stable) and Empresas Publicas de Medellin E.S.P. (EPM; BB+/Rating Watch Negative) with more than USD1 billion each, and Enel Colombia S.A.E.S.P. (BBB/Stable) and Cementos Argos S.A. with close to USD500 million each.

The building materials and construction sector contributes 52% of total maturities in 2023–2024, excluding energy and utilities. Rising commodity prices, energy costs and freight charges, along with the inability to pass through cost increases to customers, will affect FFO generation and increase refinancing risk for issuers.

Homebuilders maintain capital structures with significant short-term maturities of close to 70% of total debt, limiting flexibility under stress conditions. The telecom sector represents 16% of maturities in 2023–2024 and faces pressure from heightened competition and negative trends in ARPU. We estimate liquidity ratios for the construction and telecom sectors will be the weakest, with medians for cash/ short-term debt of 0.3x for construction and 1.8x for telecom in 2022. Energy and utilities are forecasted to have the strongest ratios in 2022 with a median of 2.8x for energy and 1.2x for utilities.

Positively, most Colombian banks have sufficient liquidity to support corporate loan growth. We project loan growth to moderate to 8%, on average, in 2023, driven by macroeconomic factors such as slower GDP growth, higher interest rates, inflation and market volatility. This compares to low double-digit loan growth during 2022. We expect commercial/corporate lending to be stable. The Colombian capital market is open to issuances in the high rating categories, given low activity in 2021–2022, but corporates are likely to favor bank loans as a less expensive option.

In addition, the following <https://www.fitchratings.com/rating-definitions-document> details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at <https://www.fitchratings.com/site/regulatory>. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch

Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided 'as is' without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk unless such risk is

specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001.

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the 'NRSRO'). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the 'non-NRSROs') and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
