[See Full EC Report](#)

EC stock closed at \$10.71 and is up \$0.17 during pre-market trading. Pre-market tends to be more volatile due to significantly lower volume as most investors only trade between standard trading hours. EC has a roughly average overall score of 42 meaning the stock holds a better value than 42% of stocks at its current price. InvestorsObserver's overall ranking system is a comprehensive evaluation and considers both technical and fundamental factors when evaluating a stock. The overall score is a great starting point for investors that are beginning to evaluate a stock. EC gets a average Short-Term Technical score of 60 from InvestorsObserver's proprietary ranking system. This means that the stock's trading pattern over the last month
