Float and Shares Shorts:

At present, 2.06 billion EC shares are outstanding with a float of 221.63 million shares on hand for trading. On Aug 14, 2023, short shares totaled 6.55 million, which was 0.32% higher than short shares on Jul 13, 2023. In addition to Mr. Ricardo Roa Barragan as the firm's Chief Exec. Officer, Maria Catalina Escobar serves as its Mang. of Value Maximization and Corp. VP of Fin. & Sustainable Value.

Institutional Ownership:

Through their ownership of 1.68% of EC's outstanding shares, institutional investors have minority control over the company.

An Overview of Recent Financials:

Understanding a company as a customer does not mean you will understand it as an investor. The wise investor uses quantitative research to analyze metrics such as revenue, net income, and earnings. In its fiscal quarter reported on Jun 29, 2023, EC reported revenue of \$43.88T and operating income of \$18.61T. The EBITDA in the recently reported quarter was \$21.65T and diluted EPS was \$5.09k.

Analysts Ratings:

Reading analyst opinions is an effective way to decide where to invest, and there are several opinions available for EC since 0 analysts follow the stock currently. In the same way, a target price assigned to a stock can also reveal much about its potential. With EC analysts setting a high price target of \$61,732.00 and a low target of \$39,563.75, the average target price over the next 12 months is \$49,392.81. Based on these targets, EC could surge 519092.6% to reach the target high and rise by 332648.11% to reach the target low. Reaching the average price target will result in a growth of 415314.72% from current levels.

EPS: Estimates vs Actual

It is also common to use earnings estimates to evaluate a firm's growth potential and to determine trading strategy.
