EC stock closed at \$11.37 and is up \$0.11 during pre-market trading. Pre-market tends to be more volatile due to significantly lower volume as most investors only trade between standard trading hours. EC has a roughly average overall score of 47 meaning the stock holds a better value than 47% of stocks at its current price. InvestorsObserver's overall ranking system is a comprehensive evaluation and considers both technical and fundamental factors when evaluating a stock. The overall
