Story Highlights

South Korea's e-commerce company Coupang's stock is down 6% in pre-market hours on Monday.

Shares of Coupang [CPNG +0.97% ▲](#) fell nearly 6% in pre-market trading on Monday after a massive data breach that may have affected nearly 34 million local customer accounts. It is being called the worst data leak South Korea has seen in over 10 years, adding to investor concern and market pressure.
