On January 19, 2026, [Ecopetrol](#) S.A. announced a series of governance and procedural measures to ensure proper shareholder representation at its Extraordinary Shareholders' Meeting scheduled for February 5, 2026. The company will formally remind investors of their right to be represented by proxy and detail the legal requirements for valid powers of attorney, empower its Corporate Legal Vice Presidency and General Secretariat to review and verify these proxies, and instruct meeting personnel to reject any that do not meet legal standards or fail to clearly identify the designated representative.

[Ecopetrol](#) is also reinforcing restrictions on the conduct of managers and employees, prohibiting them from influencing shareholders' choice of proxies, from recommending voting slates or coordinating voting strategies, from acting as attorneys-in-fact for others' shares except in limited legal cases, and from receiving proxy appointments if they are directly or indirectly connected to company management. These steps underscore the company's effort to align with Colombian regulatory guidance, bolster corporate governance practices, and provide greater transparency and safeguards for minority shareholders ahead of a key extraordinary meeting.

The most recent analyst rating on [EC](#) +4.88% ▲ stock is a Buy with a \$13.50 price target. To see the full list of analyst forecasts on [Ecopetrol](#) SA stock, see the [EC Stock Forecast page](#).

Spark's Take on EC Stock

According to Spark, TipRanks' [AI Analyst](#), EC is a Outperform.

[Ecopetrol](#)'s overall stock score is driven by strong technical indicators and attractive valuation, despite financial challenges and high leverage. The positive sentiment from the earnings call further supports the stock's potential, although caution is advised due to overbought technical signals.

Story Highlights

The H200 processor is set to become the most advanced AI chip legally exported to China under a new case-by-case review process that officially began on January 15, 2026.

[Anthropic](#) CEO Dario Amodei has slammed the U.S. government's recent decision to let advanced [AI](#) chips be sold to China. Speaking at the World Economic Forum in Davos, Switzerland, he described the move as a dangerous mistake that threatens American safety. His warning comes just as the [Trump](#) administration is changing a two-year-old policy to allow Nvidia [NVDA](#) -0.44% ▼ to sell its powerful H200 processors to Chinese
