## How Is EC Valued?

Currently, GF Value™ data is not available for [Ecopetrol](#). However, the company's P/E ratio stands at 13.26, which is indicative of its valuation relative to its earnings. This P/E ratio is close to its historical high, suggesting that the stock is being valued at a premium compared to its past performance. Investors may want to consider this context when evaluating the stock's potential. For more detailed valuation insights, visit the [EC stock page](#).

## What Does EC's GF Score™ Tell Us?

The GF Score™ ranks stocks from 0 to 100 based on five key aspects: Financial Strength, Profitability, Growth, Valuation, and Momentum. Stocks with higher GF Score™ values have been found to generate higher long-term returns (backtested 2006-2021).

Metric	Rating
GF Score™	66
Financial Strength	4/10
Profitability	9/10
Growth	6/10

[Ecopetrol](#)'s strengths lie in its profitability, with a strong rank of 9/10, indicating effective management of costs and revenues. However, its financial strength is rated at only 4/10, which raises concerns about its stability and ability to weather economic downturns. This mixed performance suggests that while the company is capable of generating profits, it may face challenges in maintaining financial health. For further details, visit the [EC stock page](#).
